

Appendix 6

Nebraska and Non-Nebraska, First-Time Freshmen Migration Data

Explanatory Note A6.1 Nebraska-Resident, First-Time Freshmen Migration Data Collection and Limitations

The data used to estimate the number and percentage of Nebraska high school graduates who go to college in Nebraska or out of state are collected every two years by the National Center for Education Statistics (NCES) through the Integrated Postsecondary Education Data System (IPEDS). These data are collected through the fall IPEDS surveys that are conducted in even-numbered years. Consequently, the latest available data are for fall 2002, fall 2004, fall 2006 and fall 2008, representing the 2002–2003, 2004–2005, 2006–2007 and 2008–2009 academic years. These data include full-time and part-time students. Data for fall include students who start college during the summer, but they do not include students who start college in the spring.

Beginning with the *2009 Nebraska Higher Education Progress Report*, out-of-state data were obtained directly from the IPEDS database cutting tool, whereas in-state data were obtained from the CCPE IPEDS survey download from IPEDS. In-state statistics reported in previous editions of this report were based on data obtained from the IPEDS database cutting tool, rather than from the CCPE IPEDS survey download. Due to unexplained differences between the data that are retrieved from the cutting tool and download, some of the statistics reported in this section for 2002 and 2004 in the 2009 progress report were slightly higher or lower than in previous editions of this report.

The statistics for fall 2002, 2004 and 2006 presented in the 2009 progress report are updated with the results of the fall 2008 IPEDS survey. For this update, the numbers of Nebraska-resident, first-time who attended out-of-state institutions were obtained using the IPEDS database cutting tool. The numbers of first-time freshmen from Nebraska, other states, and foreign countries who attended Nebraska institutions in fall 2008 were obtained from the CCPE survey download from IPERS.

The numbers of first-time freshmen from Nebraska who attended Nebraska institutions that were obtained from the CCPE IPEDS survey download for fall 2008 were compared to the data collected through the fall 2008 Nebraska county migration survey of Nebraska institutions, which was conducted by the Commission. Since some institutions completed the county survey after they completed the IPEDS fall 2008 survey, the results of the two surveys were not exactly the same. As of December 8, 2009, 47 more freshmen who had graduated from high school less than one year before enrolling at a Nebraska institution were reported on the CCPE IPEDS survey download than on the Commission's county survey. Conversely, 54 fewer freshmen who attended Nebraska colleges more than 12 months after high school graduation were reported on the CCPE IPEDS survey download than on the county survey. As a result, the net difference between the two surveys was only seven students.

Based on the IPEDS data summarized on the next page of this note, about 97% of all Nebraska-resident, first-time freshmen attended degree-granting, postsecondary institutions in Nebraska or other states, compared to 3% who attended non-degree-granting schools. As shown in the table on the next page, 98% of all Nebraska-resident, first-time freshmen attended degree-granting institutions in fall 2008, while 2% attended non-degree-granting schools.

Continued on the next page.

¹ Data Source: National Center for Education Statistics, fall 2002, 2004, 2006 and 2008 IPEDS surveys. Includes full-time and part-time students.						

The residency data reported by the non-degree-granting institutions in Nebraska were not as complete or consistent as the data reported by the degree-granting institutions in 2002 or 2004. In order to maintain comparability with the 2002 baseline data, Nebraska-resident, first-time freshmen who attended non-degree-granting schools are excluded from the analysis.

The data collected from degree-granting, independent institutions and for-profit schools in fall 2002, 2004 and 2006 are limited by the fact that a few schools did not report the numbers and residence status of their first-time freshmen who graduated from high school within 12 months of college enrollment. See Table A6.8a, Table A6.8b and Table A8c for the institutions that did not provide this information.
