State statute and the Coordinating Commission's Rule 1 require any out-of-state institution wishing to offer courses or programs in Nebraska to receive Commission approval. This report provides information on the current course and program offerings as well as a historical perspective that includes institutions approved in the past but no longer offering courses or programs in the state. Some institutions were approved over twenty years ago and have not offered programs in Nebraska for many years. State statutes, however, do not include a sunset provision for approvals that become inactive in subsequent years.
