

1997-2007 Factual Look at Higher Education in Nebraska

Reporting information from the Integrated Postsecondary
Education Data System (IPEDS)

Presented September 16th, 2008

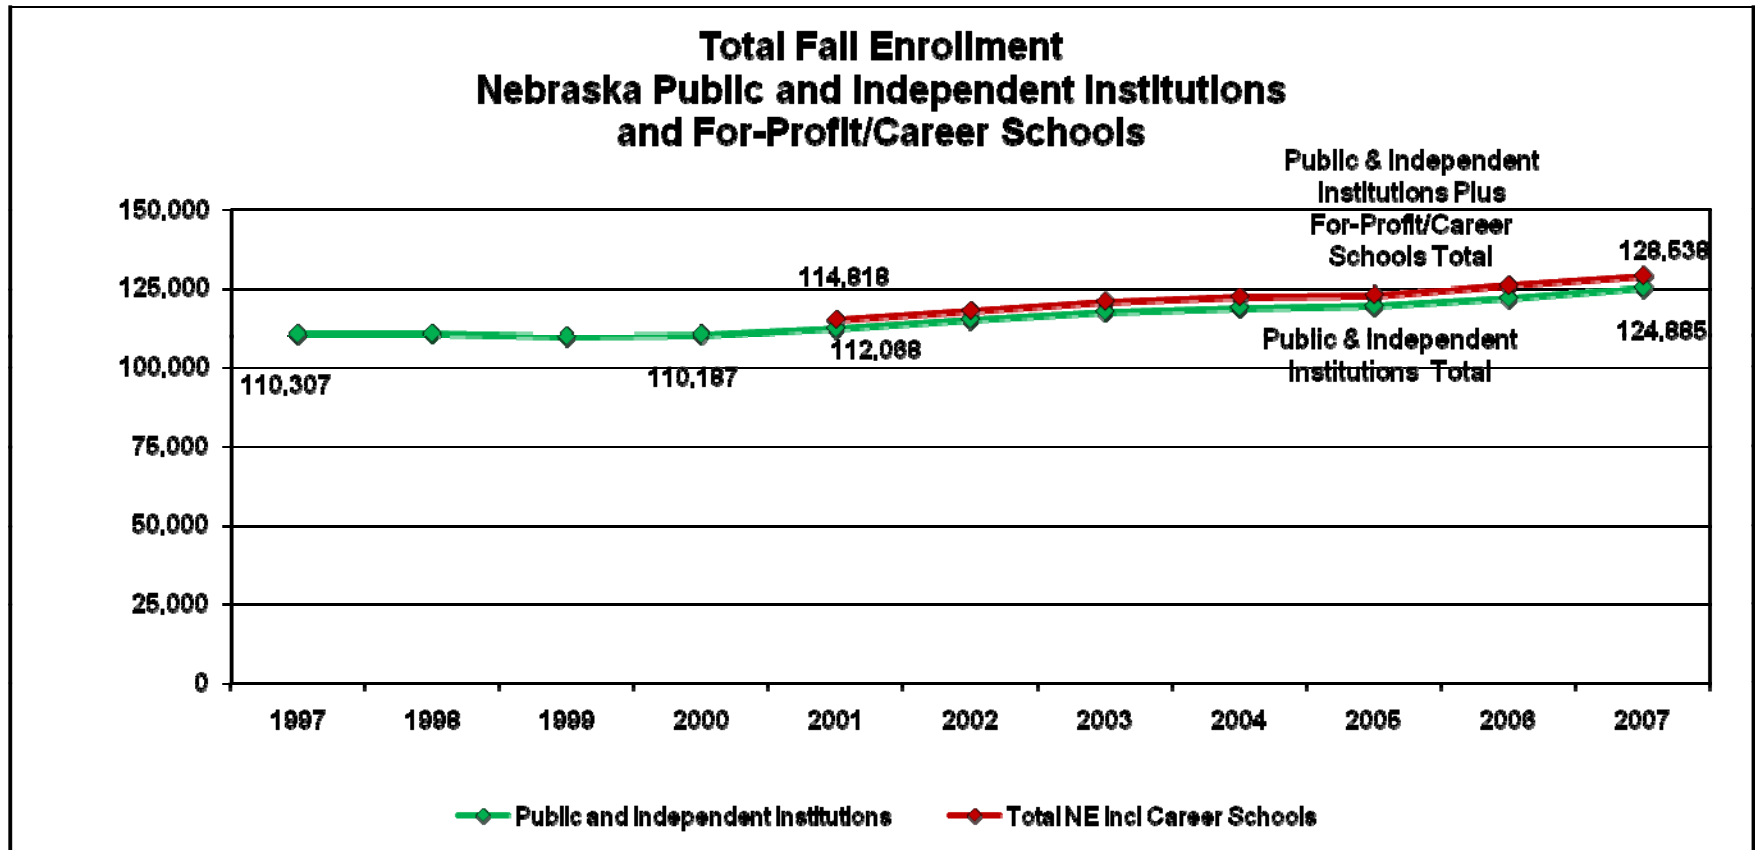

Background

- Commission required by statute to report IPEDS data.
- Generally used by legislative staff, institutional researchers, and CCPE Staff.
- A statistical analysis. Does not answer the “Why?” questions.
- Previously only one year’s worth of data,
Now a ten year trend analysis.
- Previously five sections, Now condensed to three:
 - Student enrollment
 - Degrees and awards conferred
 - Faculty and their salaries

New Features of the Factual Look

- Now primarily an online publication.
- Section A.7 added
 - Compares fall enrollment to 12-month enrollment
- Charts are colored for easier readability and interpretation.
- Incorporated For-Profit/Career Schools in the statewide analysis.
- Online Excel spreadsheets available for download.

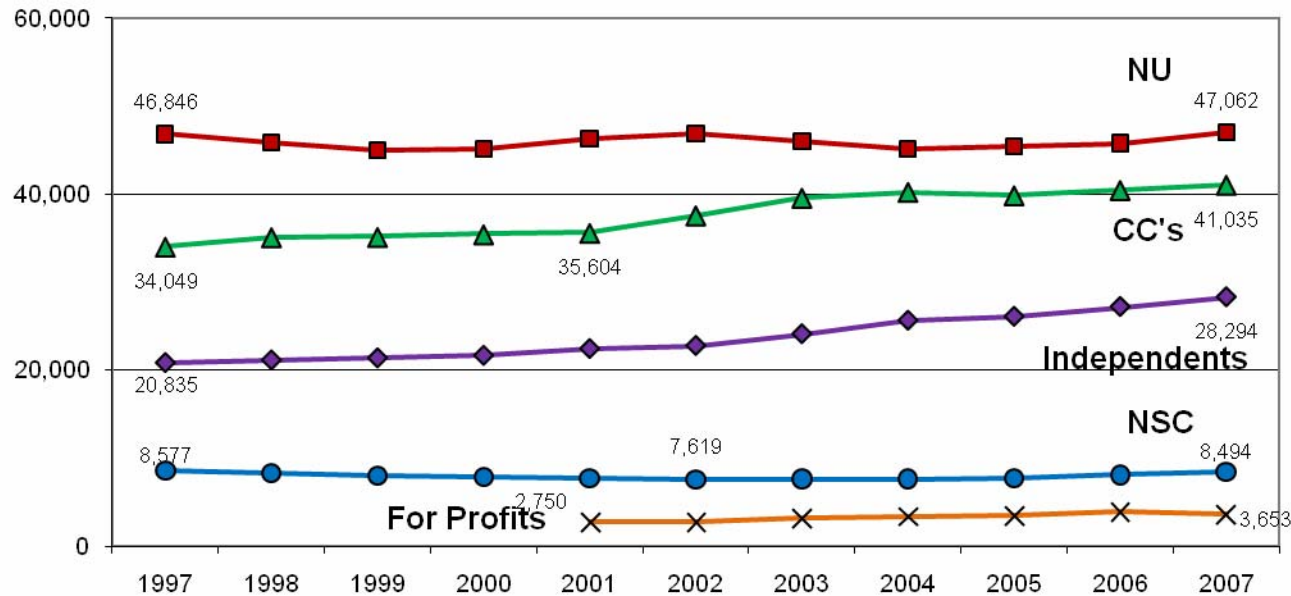

Section A: Enrollment

- Since 2000, statewide fall enrollment has increased about 2% per year to a total of 128,538 in fall 2007.

Section A: Enrollment

**Total Fall Enrollment by Sector
Nebraska Public and Independent Institutions and
For-Profit/Career Schools**

Increased 0.4%
 Increased 20.5%
 Increased 35.8%
 Decreased 1.0%
 Increased 32.8%

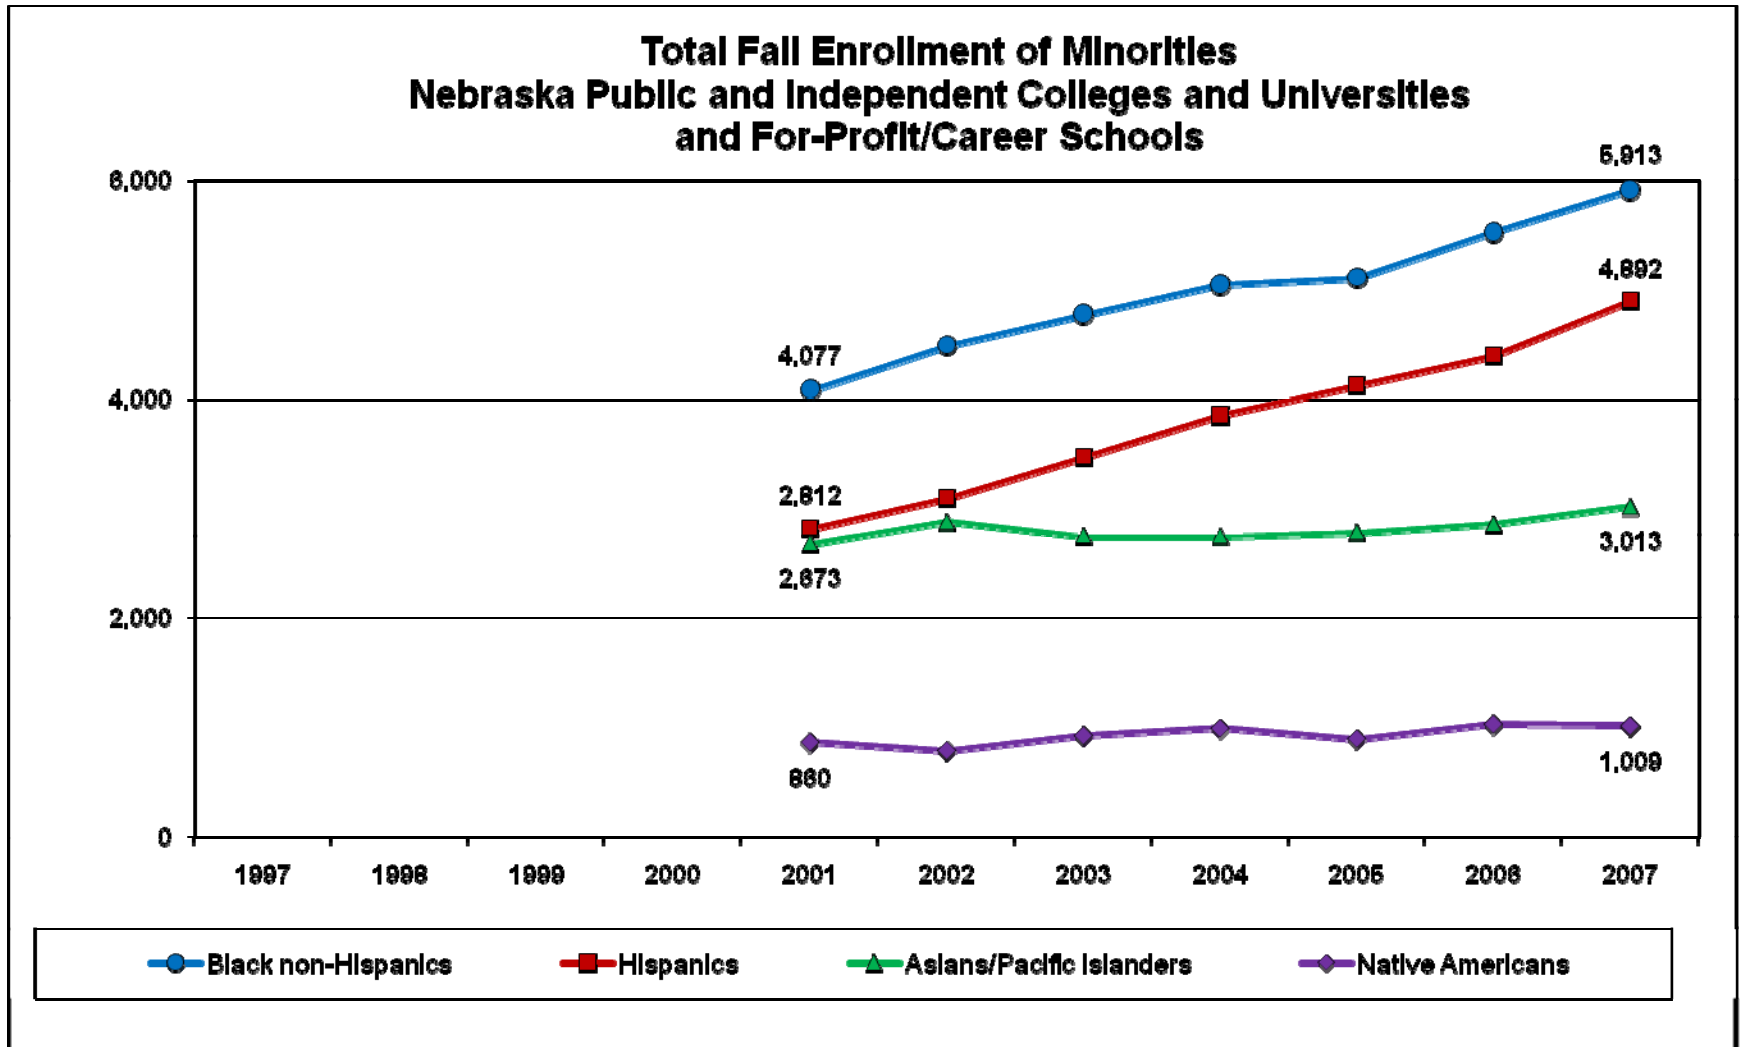

Section A: Enrollment

- Women now outnumber men at the undergraduate, graduate and first-professional levels and across all racial/ethnic groups except among foreign students.

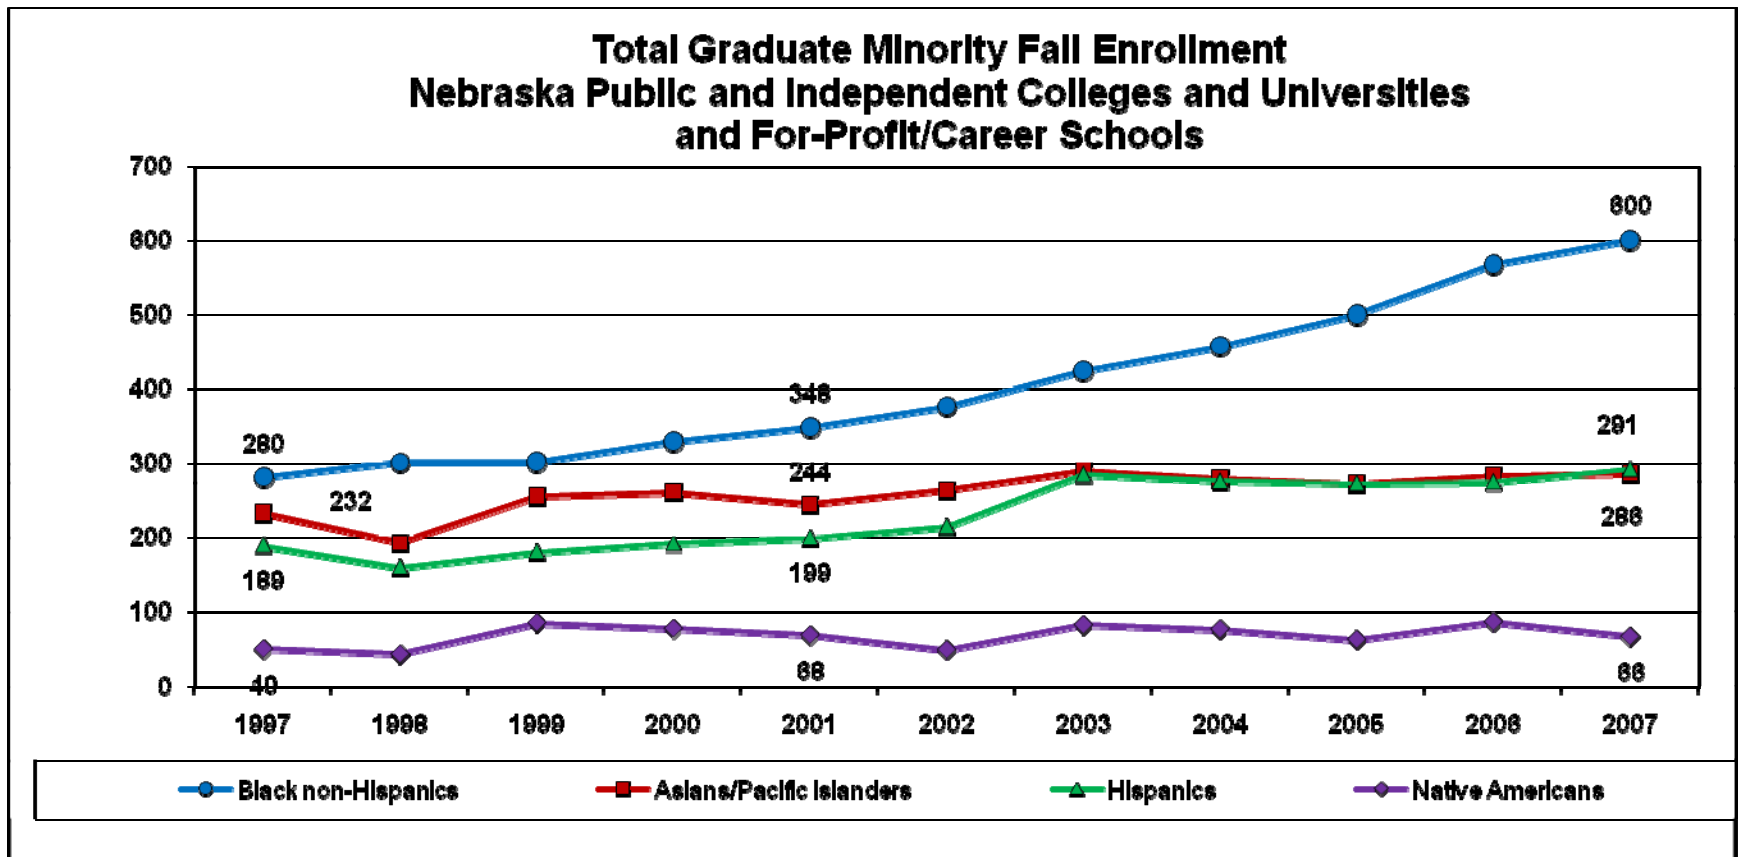

Section A: Enrollment

Section A: Enrollment

- The most significant gain among minorities has been an increased number of black non-Hispanics enrolled in graduate programs.

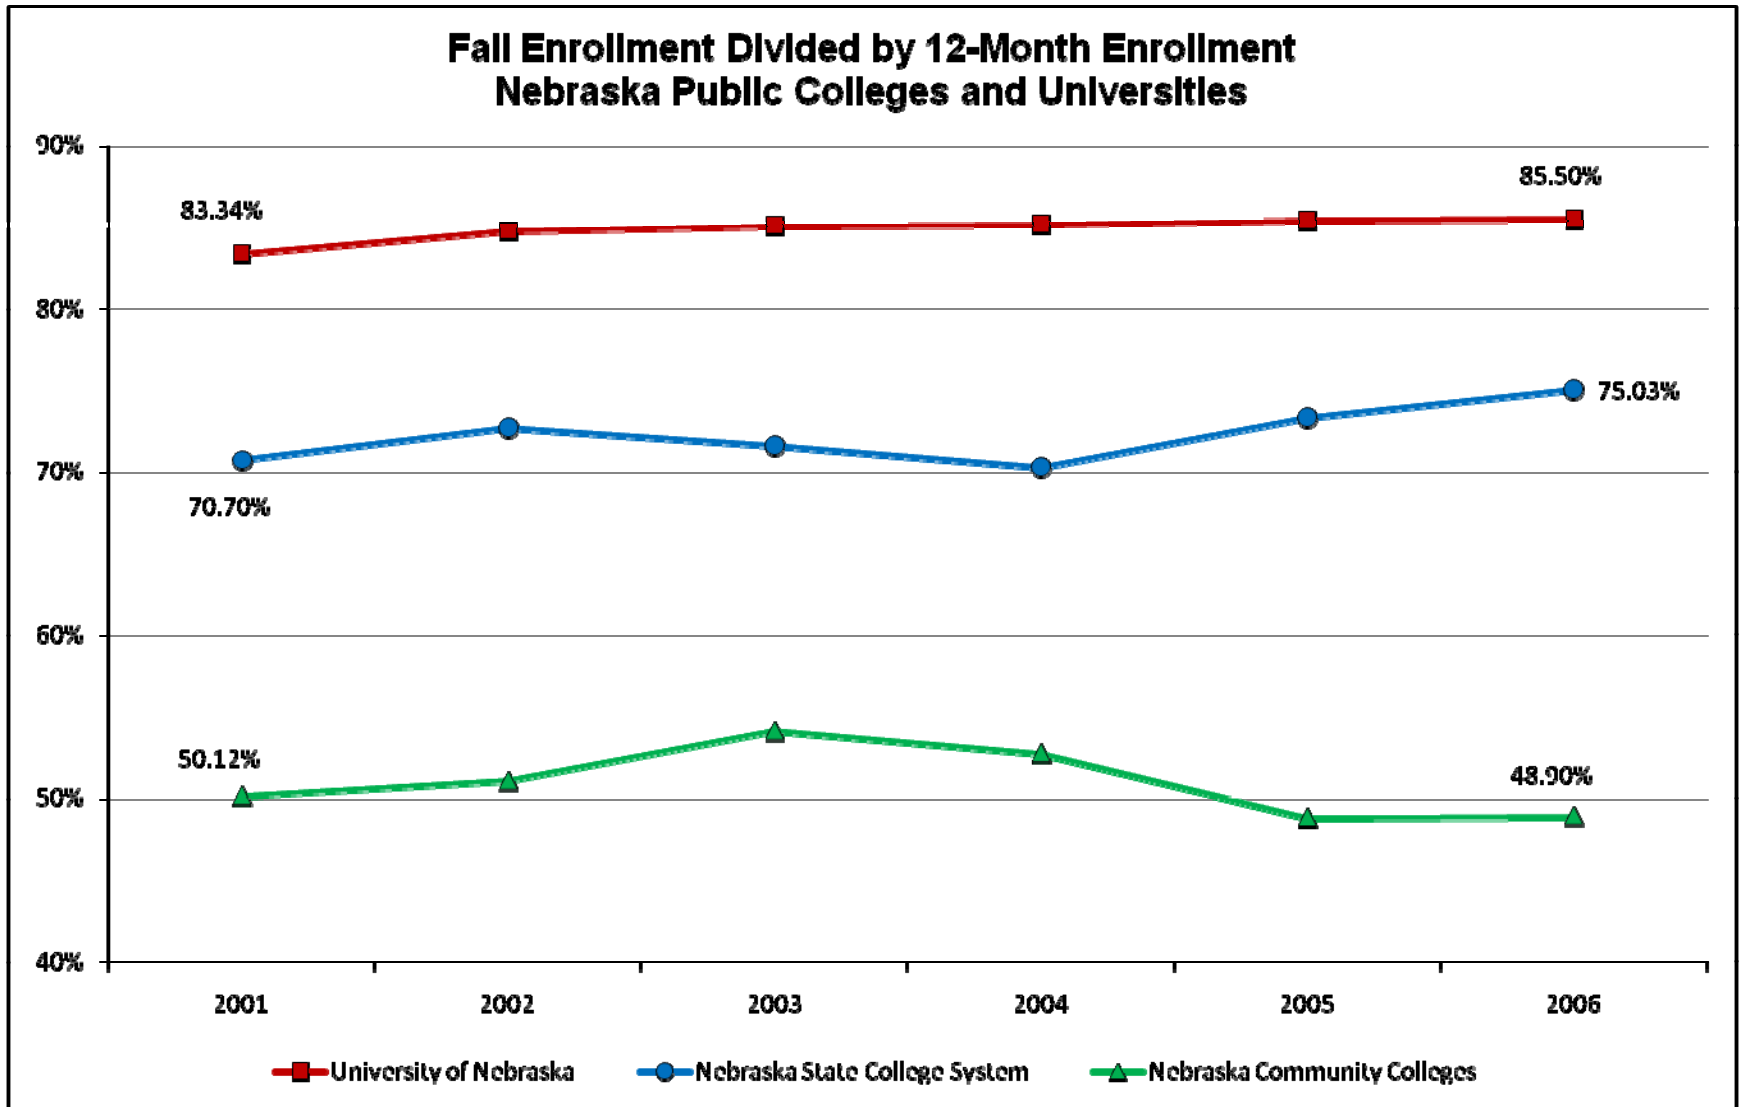

Section A: Enrollment

Fall Enrollment Divided by 12-Month Enrollment

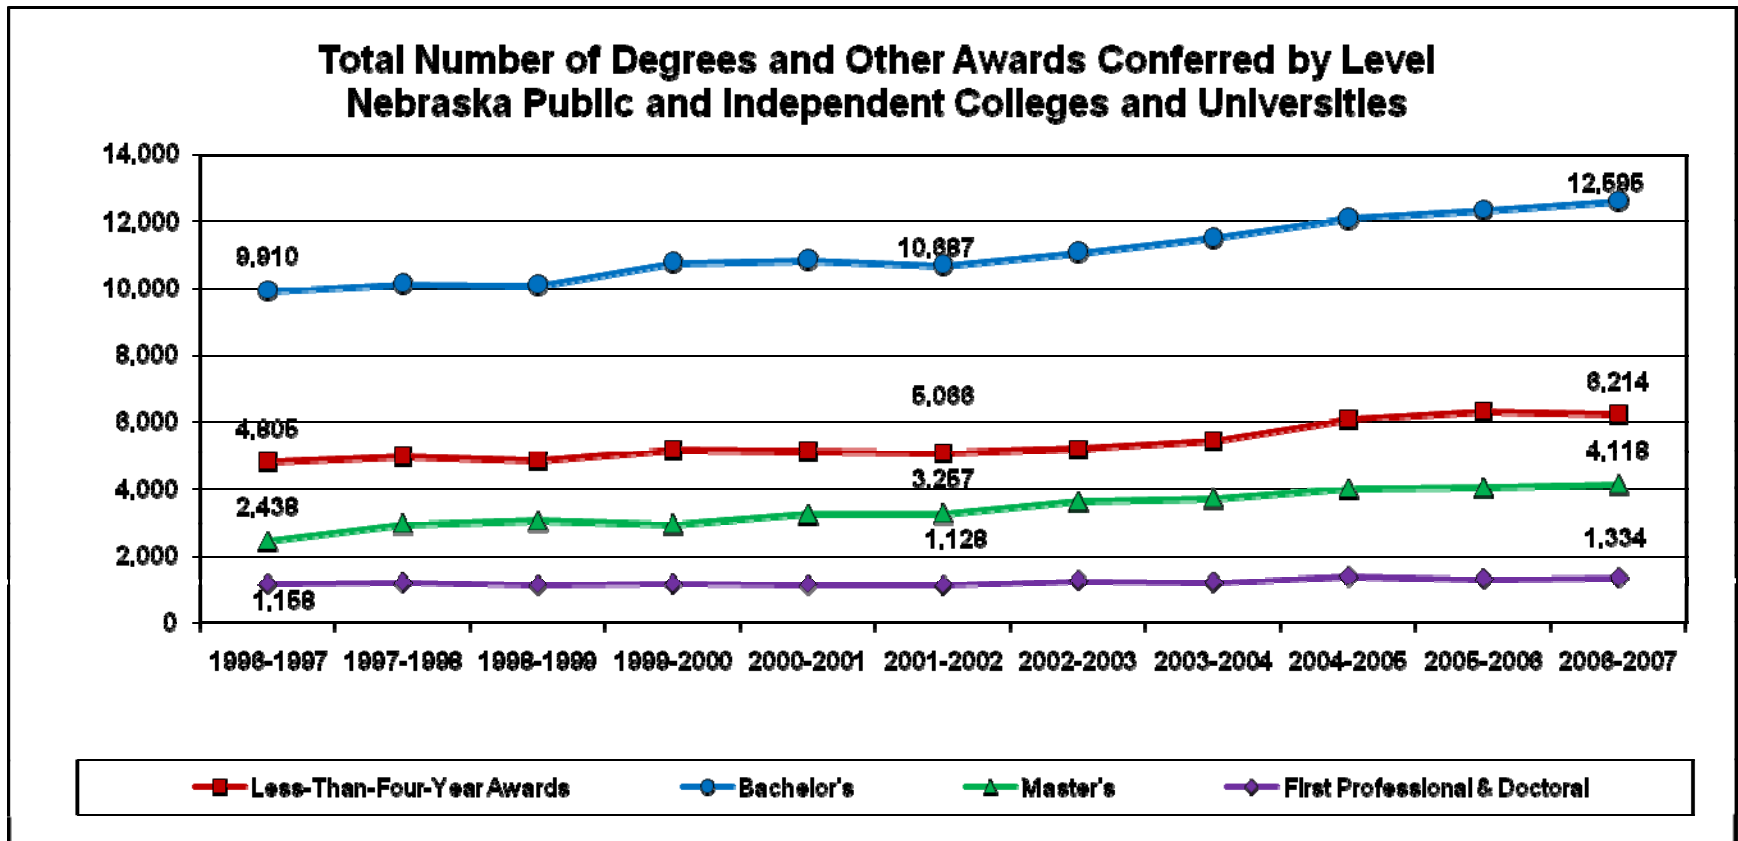

- Answers the question “What percentage of the total activity at the school is captured in the fall enrollment figures?”
- Useful in identifying possible errors in the data.
- Changes in the ratio may reflect a general student enrollment trend.

Section A: Enrollment

Section B: Degrees & Awards

- Undergraduate degrees account for almost 80% of the degrees awarded in Nebraska, but the highest rate of growth has been at the master's level.

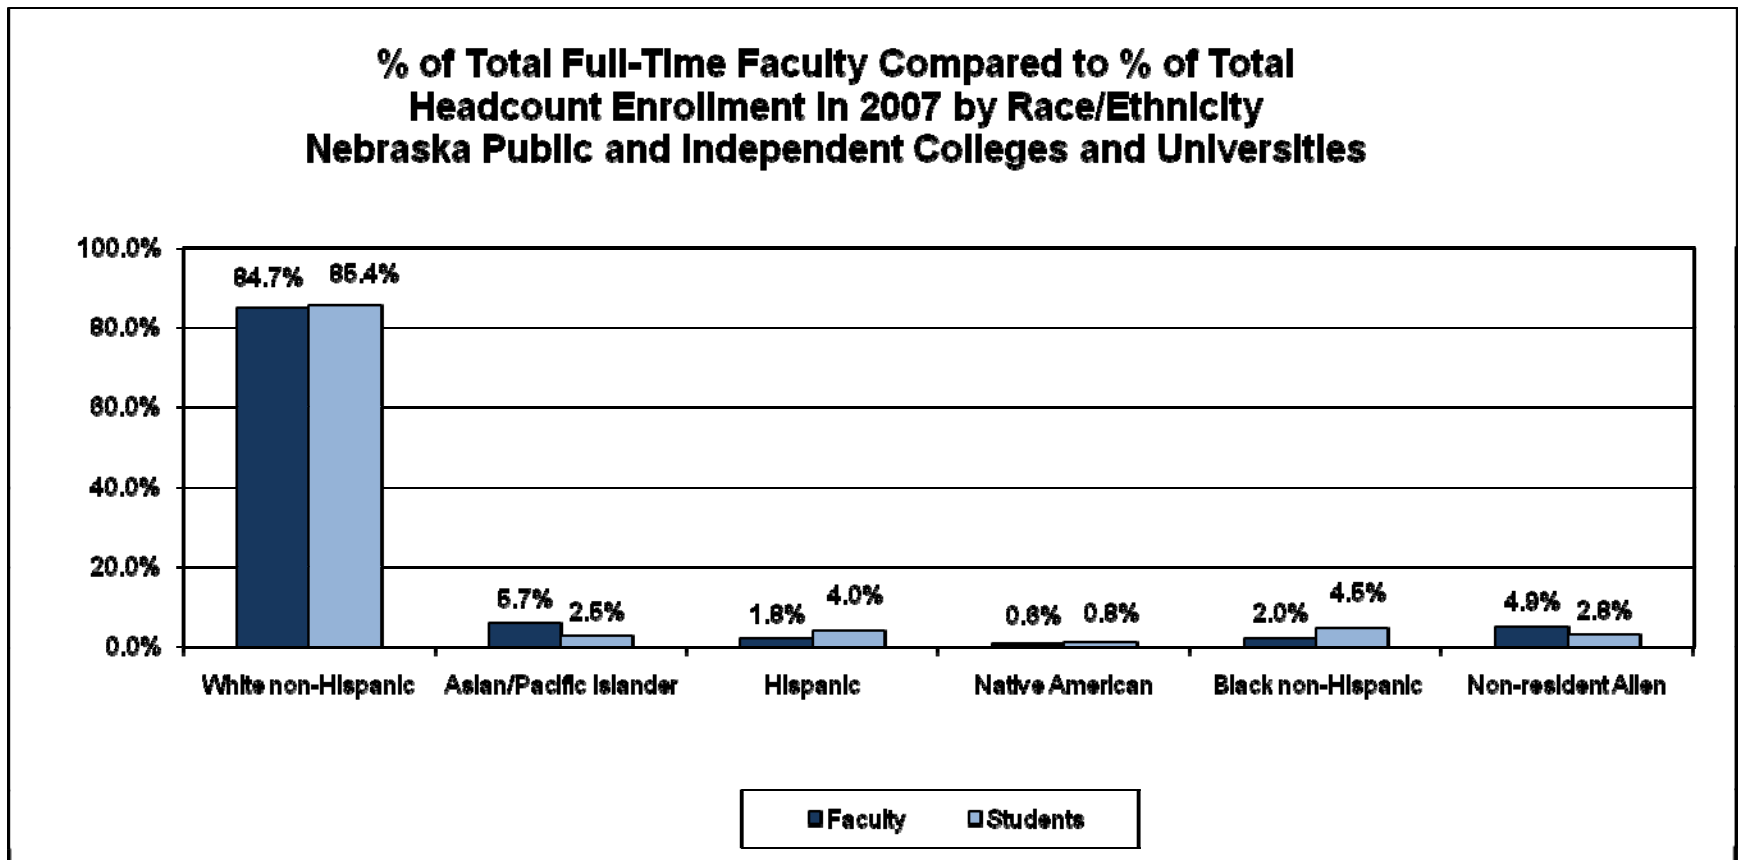

Section B: Degrees & Awards

- Minorities are continuing to account for a slowly increasing share of the degrees awarded.

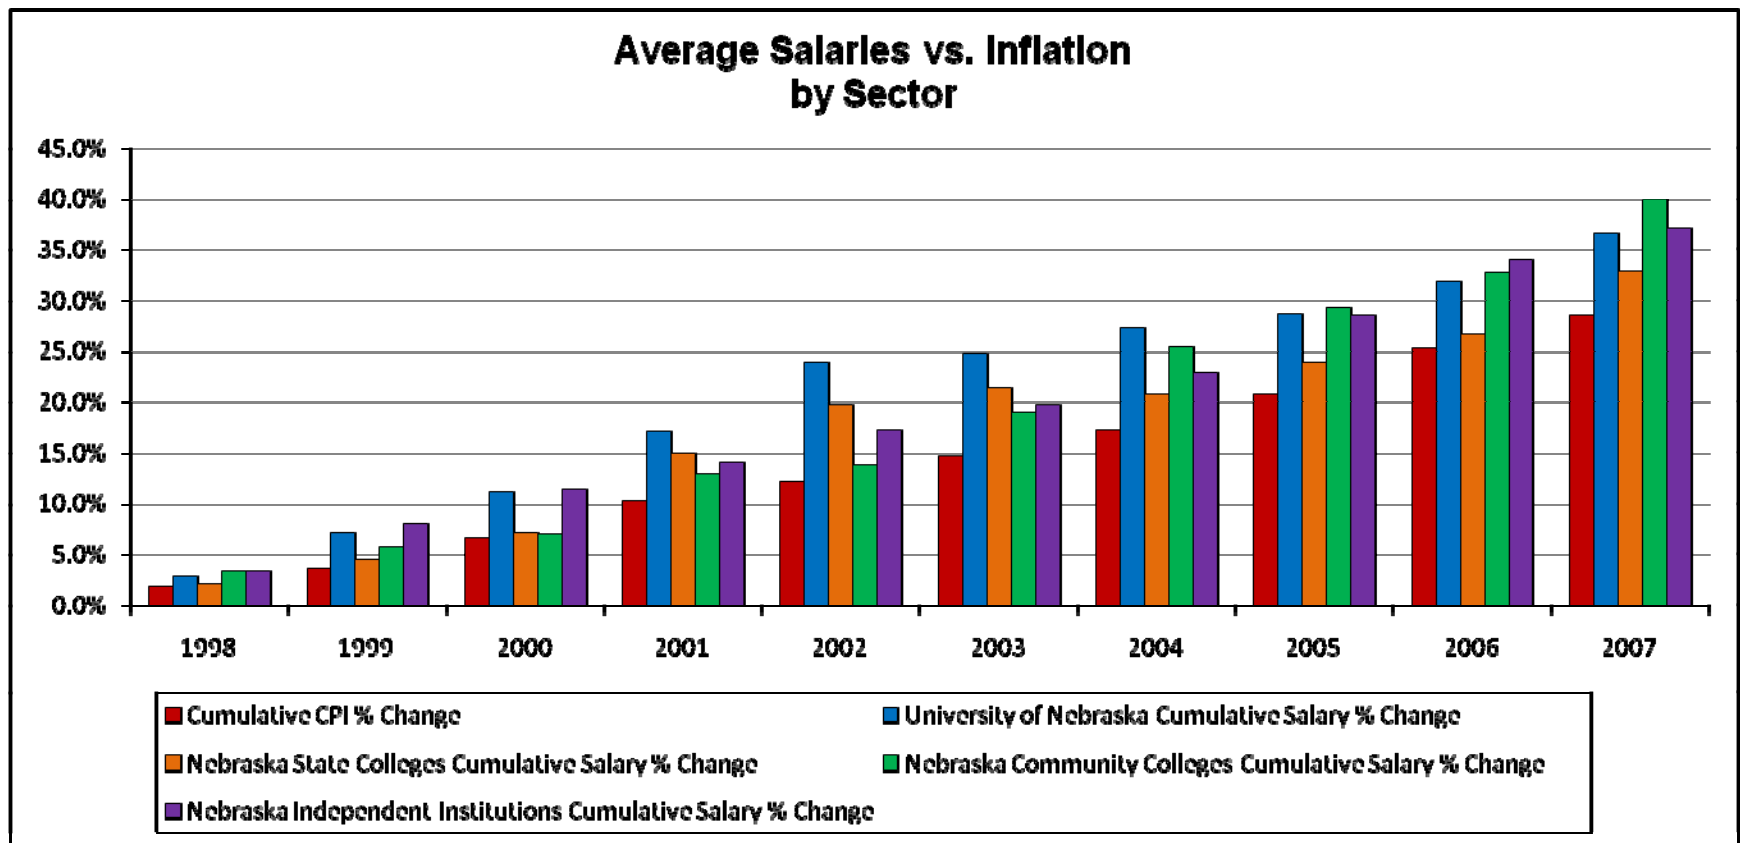

Section C: Faculty and Salaries

- The percentages of faculty who are Hispanics, black non-Hispanics or Native Americans trail the percentages of students in these three racial/ethnic groups. However, the percentage of faculty who are Asian/Pacific Islanders is higher than the percentage of students who are Asian/Pacific Islanders

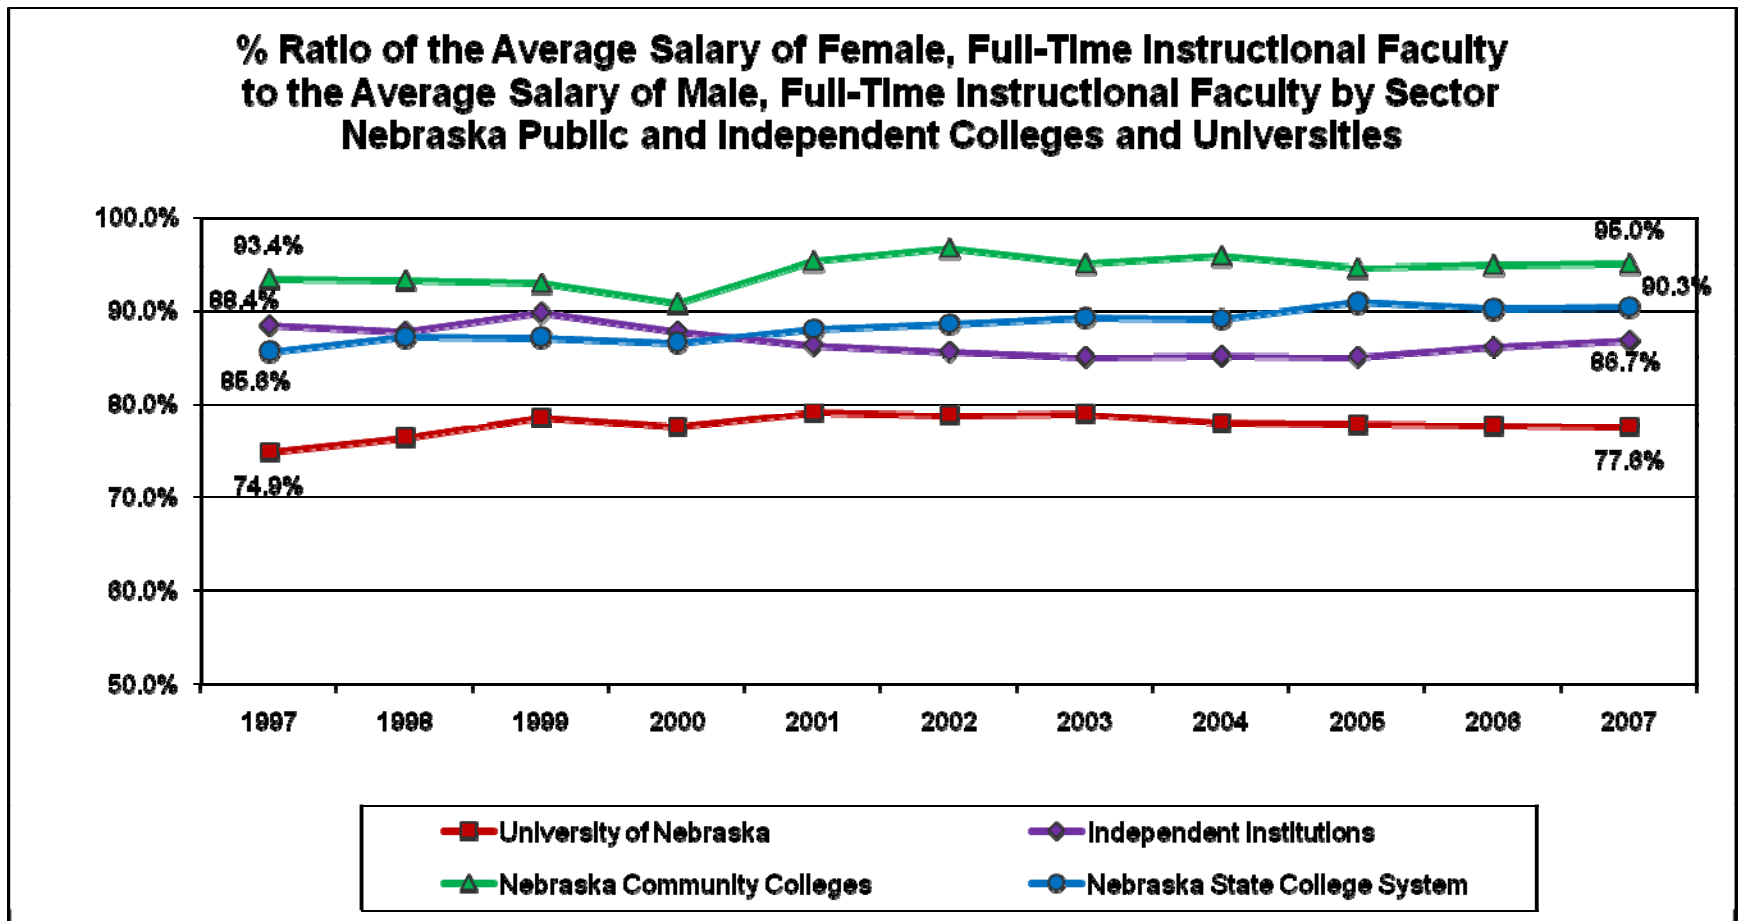

Section C: Faculty and Salaries

- Overall, increases in average faculty salaries slightly outpaced inflation over the past 10 years.

Section C: Faculty and Salaries

- There is a continuing gap between the average salaries received by male and female faculty.

Final Points

- Statewide Fall Enrollment in Fall 2007 increased 2.4% since Fall 2006.
- Statewide Degrees conferred in 2006-07 increased 1.2% since 2005-06.
- Increases in full-time faculty generally parallel increases in fall enrollment.
- The average faculty salary increased 35.5% from 1997 to 2007.
- The average faculty salary adjusted for inflation increased 5.5% from 1997 to 2007.
