Nebraska and Non-Nebraska, First-Time Freshmen Migration Data

Explanatory Note A6.1 Nebraska-Resident First-Time Freshmen Migration Data Collection and Limitations

The data used to estimate the number and percentage of Nebraska high school graduates who go to college in Nebraska or out of state are collected every two years by the National Center for Education Statistics (NCES) through the Integrated Postsecondary Education Data System (IPEDS). These data are collected through the fall IPEDS surveys that are conducted in even-numbered years. Consequently, the latest available data are for fall 2002, fall 2004 and fall 2006, representing the 2002–2003, 2004–2005 and 2006–2007 academic years. These data include full-time and part-time students. Data for fall include students who start college during the summer, but they do not include students who start college in the spring.

For this report, out-of-state data were obtained directly from the IPEDS database cutting tool, whereas in-state data were obtained from the CCPE IPEDS survey download from IPEDS. In-state statistics reported in previous editions of this report were based on data obtained from the IPEDS database cutting tool, rather than from the CCPE IPEDS survey download. Due to unexplained differences between the data that are retrieved from the cutting tool and download, some of the statistics reported in this section for 2002 and 2004 are slightly higher or lower than in previous editions of this report.

Based on the IPEDS data summarized in the table below, 97% of all Nebraska-resident, first-time freshmen attend degree-granting, postsecondary institutions in Nebraska or other states, compared to 3% who attend non-degree-granting schools. The Nebraska-resident, first-time freshmen who attend non-degree-granting schools are excluded from the analyses in this report because the residency data reported by the non-degree-granting institutions in Nebraska were not as complete or consistent as the data reported by the degree-granting institutions in 2002 or 2004.

¹Data Source: National Center for Education Statistics, fall 2002, 2004 and 2006 IPEDS surveys. Includes full-time and part-time students.

The data collected from degree-granting, independent institutions and for-profit schools are limited by the fact that a few schools did not report the numbers and residence status of their first-time freshmen who graduated from high school within 12 months of college enrollment. See [Table A6.8](#), [Table A6.9](#) and [Table A6.10](#) for the institutions that did not provide this information in 2002, 2004 and 2006.
