

## Existing Programs Reviewed, December 2006-December 2008

Five categories were used to describe Commission action:

**Continue**

All of these programs were in substantial compliance with the Commission criteria. For some, the decision was made after reviewing supplemental information.

**Continue with Follow-up Report**

Most aspects of these programs were in compliance with the Commission criteria. The Follow-up report asked for information on items such as need and demand, enrollment, number of graduates, or results of a forthcoming internal review.

**Postpone Action**

This category includes reports that required supplemental information that was not received at the time this list was compiled.

**In-depth Review**

These programs were indentified for in-depth review by the Commission because they appeared to be out of compliance with one or more criteria.

**Discontinue**

All programs in this category were recommended for discontinuance by the governing boards. Included are programs that were slated to be discontinued but the institution had not completed the administrative process for discontinuance.

Central Community College	Award	CCPE Action
Agribusiness	AAS, Diploma, Certificate	Continue
Auto Body	AAS, Diploma, Certificate	Continue
Automotive Technology	AAS, Diploma, Certificate	Continue
Commercial Horticulture	AAS	Continue
Health Information Management Services	AAS	Continue
Human Services	AAS, Diploma, Certificate	Continue
Information Technology	AAS	Continue
